

LEIJONA[®] Economic Entrance mat

12mm / 16mm

Intended use and manual

Leijona[®]Economic is designed to endure hard weather conditions and demanding use. The mat is intended to be used at the entrance of markets, business- and industrial buildings, building societies, and other entrances, where the mat is in heavy use, and should last for many years.

The Leijona Economic mat stops effectively the dirt from outside, stays very well in place, and when properly taken care of, lasts for many years in use.

Leijona Economic mat is a very cost effective choice. The mat is always tailor-made according to the customer's requests.
